PROJECT

TableTimer [https://github.com/hansto/HB_Project]

TableTimer is a restaurant end reservation app. It is built to assist the host or hostess by finding the best fit table for the guests. This decision is based on the least laxity first scheduling algorithm. It takes into account the reservation size, any celebrations, and the customer's past dining behaviors.

EXPERIENCE

Founder/Vice President of Communications

April 2020 – Current

Psyched Up Sun Devils Psychology Club

- Adapted to a new schooling situation by creating the first online psychology club at Arizona State University.
- Utilized strong communication skills to coordinate and moderate an ongoing guest speaker series.
- Promoted community engagement growing the club from conception to over 200 members.

Server

Aug 2015 – February 2020

Franco's Italian Restaurant

- Reorganized the restaurant arrangement to optimize the number of guests served.
- Created artful descriptions for a new list of 10-15 chef specials every evening.
- Collaborated with a team of servers to provide the best possible dining experience.
